### Consent Agenda - Orders and Resolutions

- 1**  
[7236] **A07-06-005 - San Diego Gas & Electric Company (SDG&E).**  
The Commission finds that SDG&E's contract administration, least cost dispatch and power procurement activities during 2006, were reasonable. Accordingly, related entries in SDG&E's Energy Resource Recovery Account and Transition Cost Balancing Account are approved. However, there will be no change in rates to SDG&E ratepayers at this time. This proceeding is closed.

**18 I\_\_\_\_\_ - Order Instituting Investigation on the Commission's Own Motion into the Rates, Operations, Practices, Services and Facilities of Southern California Edison Company.**

[7295]

The Commission opens this investigation pursuant to Rule 5.1 of the Commission's Rules of Practice and Procedure. This investigation will be consolidated with Application 07-11-011. This proceeding is opened to allow the Commission to consider proposals other than those of Southern California Edison Company (SCE). This investigation allows the Commission to enter orders on matters for which the utility may not be the proponent. It also affords parties and the Commission an opportunity and forum to provide and consider evidence on issues of interest, which may result in directives to SCE that serve the public interest and which result in just and reasonable rates, services, and facilities.

[7251]

**R06-04-010 - Order Instituting Rulemaking to Examine the Commission's post-2005 Energy Efficiency Policies, Programs, Evaluation, Measurement and Verification, and Related Issues.**

By decision (D.) 07-09-043, the Commission adopted a risk/reward shareholder incentive mechanism for the non-low income energy efficiency activities administered by Pacific Gas and Electric Company, Southern California Edison Company, San Diego Gas & Electric Company and Southern California Gas Company (the utilities). On October 31, 2007, the utilities jointly filed a Petition to Modify D.07-09-043 (Joint Petition). This decision approves the Joint Petition, with certain modifications and clarifications. While the Commission adopts the utilities' requested changes to the true-up provisions adopted in D.07-09-043, the Commission rejects their recommendation to retain the hold-back amount adopted in that decision for the interim earnings claims. Instead, the Commission increases that amount from 30% to 50% in order to mitigate the risk to ratepayer of earnings overpayment. In response to comments, the Commission also clarifies the sources of ex ante load impact estimates that the Commission will use to calculate the interim incentives for the 2006-2008 program cycle.

[7205]

**A07-01-009 - Golden State Water Company (Golden State).**

A07-01-010, A07-01-011, A07-01-012, A07-01-013, A07-01-014, A07-01-015 - Related matters. This decision approves various general rate increases for the years 2008, 2009, and 2010 for seven Golden State customer service areas (CSAs). These seven CSAs include Arden Cordova, Bay Point, Clearlake, Los Osos, Ojai, Santa Maria, and Simi Valley. Together these CSAs are referred to as Region I of Golden State's service area. While the rates for year 2008, the test year, are set by this decision, the rate adjustments for the second and third years, 2009 and 2010, will be specifically determined when advice letters for those two years are filed prior to years 2009 and 2010. In today's decision, the Commission also approves low-income rates for each of the seven districts. In addition, this decision finds the Stipulation filed by Division of Ratepayer Advocates (DRA) and Golden State on August 17, 2007 consistent with Rule 12.1 and the Commission adopts it. Where DRA and Golden State failed to agree, the Commission adopts Golden State's requests for rate recovery for a number of capital projects and additional new positions. Overall, these capital projects will result in customers experiencing rate increases. However, the approved capital projects and new positions are needed to achieve the goals set forth in the Water Action Plan 2005 to improve water quality, service reliability, and upgrade aging infrastructure. Application 07-01-009 and related matters are closed.
